EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE TITLE:

After "Apparatus", delete "and method".

2. The following is an examiner's statement of reasons for allowance: It would not have been obvious to modify the closest prior art of record, namely the Bartholomew reference, to include an elongate member which is an oscillatable scoop, since the Bartholomew reference is directed to the conveying of molten slag in the production of slag products, and prior art which teaches the use of oscillatable scoops are directed to the conveying of glass gobs in a glassware forming machine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
